

PAAA Clause C (Service on-site in radiological area/nuclear facility)

Price Anderson Amendments Act. (a) This subcontract is subject to the Price Anderson Amendments Act (PAAA). The Seller is required to comply with UT-Battelle's Radiation Protection Program (RPP) (as defined in the UT-Battelle RP Directives), which implements 10 CFR 835, and UT-Battelle's Nuclear Quality Assurance Program (QAP), ORNL-QA-P02, which implements 10 CFR 830.122, and comply with any specific product or work specifications and quality assurance requirements contained in the subcontract. The Seller could be subject to a PAAA enforcement action under 10 CFR 820 for failing to comply with UT-Battelle's RPP, QAP, and requirements contained in the subcontract, failing to provide information pertaining to the quality of the purchased services and supplies that is complete and accurate in all material respects, or failing to provide the services and supplies requested.

(b) The Seller shall promptly report violations of the contract specifications and any failure to provide the requested product or service to the Company.

(c) This agreement incorporates by reference DEAR 952.250-70, *Nuclear Hazards Indemnity Agreement (June, 1996)*. For purposes of incorporation, subcontractor means lower-tier subcontractor.

(d) The Seller shall include this clause in all subcontracts hereunder.
